How to Know You’re Ready for Avaya Cloud Office™

Here are the key steps to follow based on our experience with thousands of cloud implementations:

1. **The business**
   - Take an in-depth look at your business.
   - What’s the size of your business? (locations and employees)
   - Do you have any expansion plans?
   - How important is remote working?

2. **The timetable**
   - Think about your implementation needs.
   - Do you need immediate deployment?
   - Do you have performance issues with your current system?
   - Do you need a staged implementation? (locations, employees, features)

3. **The goals**
   - Establish a set of metrics for what you want to achieve.
   - Do you want to lower costs?
   - Do you want to drive productivity?
   - Do you need to enhance mobility?
