

Enterprise Networking for Optimized Business Agility

BLACK BOX
855.324.9909 | BLACKBOX.COM

In response to the COVID-19 crisis, enterprises are prioritizing digital transformation. The goal is not to simply bounce back, but build resiliency — and thrive under any circumstance.

COVID-19 & Beyond: The 3 Phases of Business Resiliency

RESPOND

REALITY: Immediate need for secure remote work due to ensure worker safety.

PRIORITY: Provide secure network access. Ensure data privacy. Maintain control and enforcement policies. Protect against malware across all endpoints (corporate devices and BYOD).

BENEFITS: Lower operating cost (OC); higher employee productivity, satisfaction, & retention; high-quality global resources at a lower cost.

RETOOL

REALITY: Create a trusted hybrid workplace that's safe, flexible & seamless.

PRIORITY: How to reimagine a post-pandemic environment that is safe for employees; promotes employee collaboration, anywhere, on any device; and secure, with policies and protocols in place.

BENEFITS: Lower real estate and operating costs (OCs); higher employee productivity, satisfaction, & retention.

REIMAGINE

REALITY: Optimize & transform existing networks to ensure rapid recovery in face of future disruptions. Accomplish this by addressing digitization, security, cloud storage/backup, SaaS solutions, mobile tech, virtual help desks, and online collaboration and communication.

PRIORITY: How to establish and manage advanced networks, while leveraging AI-powered analytics to minimize disruptions, increase visibility, and ensure positive bottom-line impact.

BENEFITS: Improved business continuity & recovery speed.

RESPOND

25%
or more

Percentage of increased cyber threats or alerts since the start of COVID-19.¹

Organizations' top networking priorities globally ranked.

Cybersecurity measures

#1

#2

Collaboration tools

#3

Professional services¹

Top challenges cited by global respondents in enforcing cybersecurity protocols:

- 31% Lack of visibility
- 59% Lack of employee awareness/education
- 50% Too many tools/solutions to manage
- 35% Inconsistent interfaces²

RETOOL

Efficiency to Adaptability

Global % of organizations with more than 1/2 of employees working remotely.

Bottom Line Impact: The Hybrid Model

The future of work is taking shape as a hybrid model where employees work remotely 2-3 days per week. The benefits of this framework add up to significant savings in time and money.

35 minutes

Gained in daily productivity for half-time remote workers

15%

Increase in productivity due to half-time remote work (equal to 74 new employees for free)

20-30%

Yield in growth in higher workforce productivity and up to 60% less IT error & rework¹

Amount saved annually for each U.S. employee who works half-time remotely

\$11K

\$396

Daily savings for every half-time remote worker

\$1.9M

Annual savings per 1K half-time remote workers if office space reduced by 25%³

REIMAGINE

75%

Companies that report digital transformation is accelerating due to the COVID-19 crisis¹

The ultimate workplace redefines business resiliency and embraces — even welcomes — change.

WORKFORCE

- Empowers employees to work and collaborate anywhere
- Optimizes each employee experience for performance, cost & security
- Extends enterprise-class operations to the home or other remote location

WORKPLACE

- Ensures employee safety and wellness
- Expands operational consistency across environments
- Evolves to a secure and seamless distributed work model on top of a redesigned network
