

Black Box and Juniper - Better Together

Embark on a journey where disruptions dissolve and connectivity thrives. Black Box and Juniper Networks proudly present a paradigm-shifting solution that transcends the ordinary. Our subscription-based Wireless as a Service (WaaS) model, fueled by Juniper's Mist AI platform, is your gateway to an AI-driven enterprise, where possibilities know no bounds.

Experience the Extraordinary

Elevate Connectivity with Mist AI:

Enhance your WiFi operations with the power of machine learning. Unleash reliable, predictable, and measurable performance for an unparalleled wireless experience. Gain unprecedented insight into user service levels, ensuring a superior connection every time.

Next-Level Network Management:

Redefine network management with Mist AI seamlessly integrated into access-layer switching. The Juniper EX Series Ethernet Switches redefine network performance, setting a new gold standard. Elevate device experiences and enjoy unmatched connectivity.

Seamless IoT Integration:

Embrace the future of IoT and BYOD devices with effortless IT operations and fortified network connections. Seamlessly weave the Internet of Things into your network ecosystem while ensuring ironclad security.

Revolutionize WAN Operations:

Bid goodbye to reactive network operations and say hello to Marvis, the game-changing virtual network assistant. Transform your approach from reactive to proactive, enhancing end-user visibility and slashing downtime..

Experience a new era in network innovation with Black Box and Juniper's cutting-edge solutions - your journey to a seamlessly connected future starts here.

Benefits to Your Business

Unparalleled User Experience:

Say goodbye to network disruptions and frustrated end-users. Our solution measures and enhances the user experience in real time, eradicating disruptions and boosting satisfaction.

Efficiency Redefined:

Expect a 90% reduction in network-related trouble tickets and an astounding 85% decrease in branch site visits. Our technology-driven approach streamlines operations and cuts costs.

Global Reach, Local Touch:

We offer a global approach while ensuring your business receives personalized attention. Black Box Managed Services, coupled with Juniper's expertise, guarantees a full-stack solution catering to your unique needs.

Cost Savings:

Embrace cost-efficiency through reduced IT support expenses and optimized network maintenance. The Black Box and Juniper collaboration ensures every investment counts.

Innovation at its Best:

Ride the wave of technological innovation with Juniper's Mist AI platform. Stay ahead of the curve and position your business for sustained growth.

Discover the Nexus of Connectivity and Innovation:

As you step into a realm where connectivity is an art form, Black Box and Juniper Networks light your path. Our subscription-based model, a masterpiece powered by Juniper's Mist AI platform, redefines not just networks but experiences. Join us in sculpting a tomorrow where seamless connectivity is not just a promise but a reality.
